

About our Program

DTE Energy business customers — small, medium and large — can lower their monthly utility costs by implementing a few simple energy efficiency measures. Our **Energy Efficiency Program for Business** offers a comprehensive set of incentives for both natural gas and electric users designed to help you invest in energy efficient technologies.

Here are three ways to save:

PRESCRIPTIVE	CUSTOM	NEW CONSTRUCTION
<p>Are you replacing heating systems with newer energy-efficient models?</p> <p>Upgrading your hot water and food service equipment?</p> <p>Check out the Prescriptive Incentives section of our Catalog and Application — and see our list inside.</p> <p>Prescriptive Incentives cover a wide variety of energy-efficient improvements, including: HVAC, controls, refrigeration, lighting and more.</p> <p>Incentives are based on quantity, size and efficiency of the equipment.</p>	<p>Can't find your project in the Prescriptive Incentive section?</p> <p>Then consider applying for Custom Incentives, which are for projects that involve less common or more complex technologies than our list of prescriptive equipment.</p> <p>Custom Incentives are based on the first year of energy savings (Mcf and/or kWh).</p> <p>NOTE: Only DLC- and ENERGY STAR[®]-listed lighting is eligible; fluorescents and CFLs are not eligible.</p>	<p>Are you building a new facility, changing the usage of space or adding load? Then our New Construction and Major Renovation Incentives are available to assist you:</p> <ul style="list-style-type: none"> • Systems Approach incentives are predetermined to optimize the energy efficiency of individual systems. • LEED Whole Building Approach incentives are based on energy savings validated by LEED. • The LEED Design Review Assistance incentive is designed to encourage LEED certification.
<ul style="list-style-type: none"> • Prescriptive incentives are available for many common energy efficiency measures. • Incentives are based on predetermined energy savings. • Prescriptive incentives typically average 20% to 50% of the incremental cost of the equipment or services provided. 	<ul style="list-style-type: none"> • Custom incentives are offered for capital investment projects that are NOT eligible for a Prescriptive incentive. • Incentives are determined on a case-by-case basis and are paid per unit energy saved. • Custom incentives are capped at 50% of project costs. 	<ul style="list-style-type: none"> • New Construction/Major Renovation incentives are available for new facilities, the renovation of existing facilities or a change of use project, such as converting a warehouse into an office complex. • Incentives also are available for adding load.

PRESCRIPTIVE MEASURES 2017 Natural Gas

Contact Us

phone: **866.796.0512** (press option 3)

web: **dteenergy.com/savenow**

email: **saveenergy@dteenergy.com**

fax: **313.664.1950**

*Funds will be awarded on a first-come, first-served basis; program based on availability of funding and may end at any time; certain other conditions apply; contact our office for details

V4: 6/1/2017

Ask us how DTE Energy can help you reduce your business' natural gas costs year after year!

DTE Energy offers cash incentives for the installation of these energy-saving measures*

HVAC

- ❖ Automatic High Speed Doors – Exterior Doors
- ❖ Boiler Linkageless Controls and O₂ Trim Controls
- ❖ Boiler Modulating Burner Control
- ❖ Boiler O₂ Trim Controls
- ❖ Boiler Stack Economizer
- ❖ Boiler Water Reset Control
- ❖ Chilled Water Reset with Pump on/off Control
- ❖ Demand Controlled Ventilation
- ❖ Destratification Fans
- ❖ Direct Fired Make-Up Air Units
- ❖ Guestroom Energy Management Control (Gas Heat)
- ❖ High Efficiency Gas Furnace/Unit Heater
- ❖ High Efficiency Space Heating Boiler
- ❖ HVAC Occupancy Sensor for Large Office Buildings
- ❖ Infrared Heaters
- ❖ Linkageless Boiler Controls
- ❖ Outside Air Ventilation Reduction
- ❖ Ozone Laundry System
- ❖ Programmable Thermostat (Gas Heat)
- ❖ Sensible Energy Recovery Ventilation
- ❖ Setback-Setup Controls (Gas Heat)
- ❖ Steam Trap Monitoring System
- ❖ Steam Trap Repair/Replacement
- ❖ Total Energy Recovery Ventilation
- ❖ Variable Frequency Drives – Secondary Chilled Water Pumps
- ❖ Web-Based Building Automation System

Hot Water and Laundry

- ❖ Air-Cooled Condenser Heat Recovery (DWH) - Process/HVAC
- ❖ Condenser Heat Recovery
- ❖ Domestic Hot Water System
- ❖ Gas Storage Water Heater
- ❖ Gas Tankless Water Heater
- ❖ High Efficiency Clothes Washer (Gas Water Heat)
- ❖ High Efficiency Pool Heater
- ❖ Laminar Flow Restrictors
- ❖ Low-Flow Showerhead
- ❖ Low-Flow Sink Aerator
- ❖ Ozone Laundry
- ❖ Water-Cooled Condenser Heat Recovery (DWH) - Process/HVAC

Insulation

- ❖ Domestic Hot Water Pipe Wrap
- ❖ Greenhouse Heat Curtain
- ❖ Greenhouse Infrared Film
- ❖ Pipe Wrap – Steam or Hot Water Boiler
- ❖ Pool Covers
- ❖ Roof Insulation (Flat Roofs and Attic Roofs)
- ❖ Truck Loading Dock Leveler Ramp Air Pit Seals
- ❖ Truck Loading Dock Seals
- ❖ Wall Insulation

Boiler/Furnace Tune-up

- ❖ Boiler Tune-up
- ❖ Domestic Hot Water Boiler Tune-Up
- ❖ Forced Air Gas Furnace or Rooftop Unit (RTU) Tune-up
- ❖ Process Furnace/Burner Tune-ups

Process Gas

- ❖ Air Compressor Exhaust Heat Recovery
- ❖ Furnace Tube Inserts
- ❖ High Efficiency Process Boiler (Water or Steam)
- ❖ Modulated Boiler Control for Process
- ❖ Process Boiler Stack Economizer
- ❖ Regenerative/Recuperative Thermal Oxidizer
- ❖ Regenerative Thermal Oxidizer
- ❖ Steam Trap Monitoring System
- ❖ Tank Insulation
- ❖ Optimized Snow and Ice Melt Controls

Food Service

- ❖ Commercial Kitchen Ventilation (CKV) Hood with Demand Control
- ❖ Combination Ovens
- ❖ ENERGY STAR® Convection Ovens
- ❖ ENERGY STAR® Dishwasher
- ❖ ENERGY STAR® Fryers
- ❖ ENERGY STAR® Griddles
- ❖ ENERGY STAR® Steam Cookers
- ❖ Infrared Charbroiler
- ❖ Infrared Rotisserie Ovens
- ❖ Infrared Salamander Broiler
- ❖ Infrared Upright Broiler
- ❖ Large Vat Fryers
- ❖ Pasta Cooker
- ❖ Pre-Rinse Sprayers (Gas Water Heater)
- ❖ Rack Oven
- ❖ Reach-in Refrigerated Display Case Door Retrofit
- ❖ Refrigeration Condenser Waste Heat Recovery (DWH/Space Heating)
- ❖ Vertical Night Covers

❖ Qualifying Measures for New Construction Applications

Custom projects

What if I'm installing equipment that isn't listed?

If your project involves measures not listed here, you should consider applying for **Custom** incentives.

Custom incentives are paid based on each project's first-year energy savings.

All Custom Applications require a Reservation Application prior to beginning your project.

New Construction and Major Renovation projects

If your project involves the construction of a new building or the re-purposing of an existing structure, then you should apply for incentives under our **New**

Construction-Major Renovation

program. Incentives offered through this program are ideal for projects that either involve whole building energy modeling or pre-determined measures. Look for this icon  in our Catalog and Application — and on our lists (left) — identifying qualifying measures.

For more information about the New Construction/Major Renovation program, download our Catalog or Application from dteenergy.com/savenow.

*For a list of individual measures and specifications, download the 2017 Program Catalog and Application at dteenergy.com/savenow
