

About our Program

DTE Energy business customers — small, medium and large — can lower their monthly utility costs by implementing a few simple energy efficiency measures. Our **Energy Efficiency Program for Business** offers a comprehensive set of incentives for both natural gas and electric users designed to help you invest in energy efficient technologies.

Here are three ways to save:

PRESCRIPTIVE

Are you replacing heating systems with newer energy-efficient models?

Upgrading your hot water and food service equipment?

Check out the **Prescriptive Incentives** section of our Catalog and Application — and see our list inside.

Prescriptive Incentives cover a wide variety of energy-efficient improvements, including: HVAC, controls, refrigeration, lighting and

Incentives are based on quantity, size and efficiency of the equipment.

- Prescriptive incentives are available for many common energy efficiency
- Incentives are based on predetermined energy savings.
- Prescriptive incentives typically average 20% to 50% of the incremental cost of the equipment or services provided

CUSTOM

Can't find your project in the Prescriptive Incentive section?

Then consider applying for Custom Incentives, which are for projects that involve less common or more complex technologies than our list of prescriptive equipment.

Custom Incentives are based on the first year of energy savings (Mcf and/or kWh).

NOTE: Only DLC- and ENERGY STAR®-listed lighting is eligible: fluorescents and CFLs are not eligible.

- Custom incentives are offered for capital investment projects that are NOT eligible for a Prescriptive incentive.
- case basis and are paid per unit energy

NEW CONSTRUCTION

Are you building a new facility, changing the usage of space or adding load? Then our New **Construction and Major** Renovation Incentives are available to assist you:

- Systems Approach incentives are predetermined to optimize the energy efficiency of individual systems.
- LEED Whole Building Approach incentives are based on energy savings validated by LEED.
- The LEED Design Review Assistance incentive is designed to encourage LEED certification.
- New Construction/Major Renovation incentives are available for new facilities, the renovation of existing facilities or a change of use project, such as converting a warehouse into an office complex.
- Incentives also are available for adding

2018 **Prescriptive Natural Gas Measures**

email: saveenergy@dteenergy.com 313.664.1950

*Funds will be awarded on a first-come, first-served basis; program based on availability of funding and may end at any time; certain other conditions apply; contact our office for details

2018 DTE Gas Foldover

V1:12/1/2017

ENERGY EFFICIENCY PROGRAM FOR BUSINESS

DTE Energy offers cash incentives for the installation of these energy-saving measures*

HVAC

- Automatic High Speed Doors Exterior Doors
- Boiler Linkageless Controls and O₂ Trim Controls Boiler Modulating Burner Control
- Soiler O, Trim Controls
- Septiment Stack Economizer

Boiler Water Reset Control

Chilled Water Reset

- Demand Controlled Ventilation
- Destratification Fans
 Destratification F
- Sirect Fired Make-Up Air Units
- Suestroom Energy Management Control (Gas Heat)
- Migh Efficiency Gas Furnace/Unit Heater
- Migh Efficiency Space Heating Boiler
- MAC Occupancy Sensor for Large Office Buildings

Linkageless Boiler Controls

Outside Air Ventilation Reduction

- Sensible Energy Recovery Ventilation
- Steam Trap Monitoring System Steam Trap Repair/Replacement
- Total Energy Recovery Ventilation

Variable Frequency Drives – Secondary Chilled Water Pumps Web-Based Building Automation System

Hot Water and Laundry

- Air-Cooled Condenser Heat Recovery (DWH) Process/HVAC Condenser Heat Recovery
- Nomestic Hot Water System
- Gas Tankless Water Heater
- ▼ ENERGY STAR® High Efficiency Clothes Washer (Gas Water Heat)
- Migh Efficiency Pool Heater
- ▼ Laminar Flow Restrictors

Low-Flow Showerhead

Low-Flow Sink Aerator

- ▼ Ozone Laundry
- Water-Cooled Condenser Heat Recovery (DWH) Process/HVAC

Insulation

Domestic Hot Water Pipe Wrap

Pipe Wrap – Steam or Hot Water Boiler

▼ Pool Covers

Roof Insulation (Flat Roofs and Attic Roofs)

Truck Loading Dock Leveler Ramp Air Pit Seals

Truck Loading Dock Seals

Wall Insulation

Boiler/Furnace Tune-up

Boiler Tune-up

Domestic Hot Water Boiler Tune-Up

Forced Air Gas Furnace or Rooftop Unit (RTU) Tune-up

Process Furnace/Burner Tune-ups

- Air Compressor Exhaust Heat Recovery Furnace Tube Inserts
- Migh Efficiency Process Boiler (Water or Steam) Modulated Boiler Control for Process
- Optimized Snow and Ice Melt Controls
- *Process Boiler Stack Economizer Regenerative/Recuperative Thermal Oxidizer
- Regenerative Thermal Oxidizer
- Steam Trap Monitoring System Tank Insulation

Water-Cooled Condenser Heat Recovery (DWH)

Food Service

Commercial Kitchen Ventilation (CKV) Hood with Demand Control* Combination Ovens*

ENERGY STAR® Convection Ovens*

Convevor Ovens*

ENERGY STAR® Dishwasher*

ENERGY STAR® Frvers*

ENERGY STAR® Griddles*

ENERGY STAR® Steam Cookers*

Infrared Rotisserie Ovens*

Infrared: Charbroilers, Salamander Broilers, Upright Broilers*

Large Vat Frvers*

Pasta Cooker*

Pre-Rinse Sprayers (Gas Water Heater)*

Rack Ovens*

Reach-in Refrigerated Display Case Door Retrofit

- Refrigeration Condenser Waste Heat Recovery (DWH/Space Heating)
- Vertical Night Covers
- *Part of Food Service Instant Rebate Program

Custom projects

What if I'm installing equipment that isn't listed?

If your project involves measures not listed here, you should consider applying for **Custom** incentives.

Custom incentives are paid based on each project's first-year energy savings.

All Custom Applications require a Reservation Application prior to beginning your project.

New Construction and Major Renovation projects

If your project involves the construction of a new building or the re-purposing of an existing structure. then you should apply for incentives under our **New**

Construction-Major Renovation program.

Incentives offered through this program are ideal for projects that either involve whole building energy modeling or pre-determined measures. Look for this icon in our Catalog and Application — and on our lists (left) identifying qualifying measures.

For more information about the New Construction/Major Renovation program, download our Catalog or Application from dteenergy.com/savenow.
