ENERGY EFFICIENCY PROGRAM FOR BUSINESS

SPEC SHEET

2017 Food Service Specifications

Below are the specifications for products offered through the **DTE Energy Midstream Food Service Program**. If you have questions about these specifications or other aspect of the program, contact our office.

ELECTRIC

ENERGY STAR® Commercial Solid Door Refrigerators

Incentives are available for replacement units that are ENERGY STAR®-listed. Cases with remote refrigeration systems are not eligible. Incentive is per refrigerator.

ENERGY STAR® Commercial Glass Door Refrigerators

Incentives are available for replacement units that are ENERGY STAR®-listed. Cases with remote refrigeration systems are not eligible. Incentive is per refrigerator.

ENERGY STAR® Commercial Solid Door Freezers

Incentives are available for replacement units that are ENERGY STAR®-listed. Cases with remote refrigeration systems are not eligible. Incentive is per freezer.

ENERGY STAR® Commercial Glass Door Freezers

Incentives are available for replacement units that are ENERGY STAR®-listed. Cases with

remote refrigeration systems are not eligible. Incentive is per freezer.

ENERGY STAR® Convection Ovens

Incentives are available for replacement electric units that are ENERGY STAR®-listed. Ovens must have a heavy load Cooking Energy Efficiency of at least 70%. Used or rebuilt equipment is not eligible. Incentive is per oven.

Combination Ovens

Incentives are available for replacement electric units that have a Cooking Energy Efficiency of at least 60%. Used or rebuilt equipment is not eligible. Incentive is per oven.

ENERGY STAR® Fryers

Incentives are available for replacement electric units that are ENERGY STAR®-listed with a heavy load Cooking Energy Efficiency of at least 80%. Used or rebuilt equipment is not eligible. Incentive is per fryer.

ENERGY STAR® Griddles

Incentives are available for replacement electric units that are ENERGY STAR®-listed. Griddles must have a Cooking Energy Efficiency of at least 70%. Used or rebuilt equipment is not eligible. Incentive is per griddle.

ENERGY STAR® Steam Cookers

Incentives are available for replacement electric steamers that are ENERGY STAR®-listed with a Cooking Energy Efficiency of 50% for all size units. Used or rebuilt equipment is not eligible. Incentive is per cooker.

ENERGY STAR® Hot Holding Cabinets

Incentives are available for replacement units that are ENERGY STAR®-listed and consume < 40 watts per cubic foot. Half size units are <10 cubic feet, three quarter size units are 10-15 cubic feet and full size units are >15 cubic feet. Cook-and-hold equipment is not eligible. Used or rebuilt equipment is not eligible. Incentive is per cabinet.

ENERGY STAR® Ice Machines

Incentives are available for ice machines that generate crushed, fragmented or cubed ice of 60 grams (2 oz.) or lighter. Only air-cooled machines (self-contained, ice-making heads or remote condensing) are eligible. Flake and nugget machines are not eligible. The machine must have a minimum capacity of 101 lbs of ice per 24-hour period. Incentive is per ice machine.

Pre-Rinse Sprayers

(Electric Water Heat)

Incentives are available for low-flow, high-efficiency pre-rinse sprayers using less than or equal to 1.6 gallons per minute (gpm). Water heating must be with an electrical appliance. Incentive is per sprayer.

NATURAL GAS

ENERGY STAR® Steam Cookers

Incentives are available for replacement gas steamers that are ENERGY STAR®-listed. Five and six pan units must have working efficiency of 38%. Used or rebuilt equipment is not eligible. Incentive is per cooker.

ENERGY STAR® Convection Ovens

Incentives are available for replacement gas units that are ENERGY STAR®-listed. Ovens must have a heavy load Cooking Energy Efficiency of at least 44%. Used or rebuilt equipment is not eligible. Incentive is per oven.

Combination Ovens

Incentives are available for replacement gas units that have a Cooking Energy Efficiency of at least 40%. Used or rebuilt equipment is not eligible. Incentive is per oven.

Commercial Conveyor Ovens

≤ 25" in width

Incentives are available for replacement gas units that have a Cooking Energy Efficiency of at least 42% and have an idle rate of ≤29,000 Btu/h. Used or rebuilt equipment is not eligible.

Commercial Conveyor Ovens

> 25" in width

Incentives are available for replacement gas units that have a Cooking Energy Efficiency of at least 42% and have an idle rate of ≤57,000 Btu/h. Used or rebuilt equipment is not eligible.

Rack Ovens

Incentives are available for replacement gas units that have a heavy load Cooking Energy Efficiency of at least 50% for both single and double rack ovens. Used or rebuilt equipment is not eligible. Incentive is per oven.

ENERGY STAR® Fryers

Incentives are available for replacement gas units that are ENERGY STAR®-listed with a heavy load Cooking Energy Efficiency of at least 50%. Used or rebuilt equipment is not eligible. Incentive is per fryer.

Large Vat Fryers

Incentives are available for replacement gas units that have a heavy load Cooking Energy Efficiency of at least 50%. Used or rebuilt equipment is not eligible. Multi-vat units are considered one fryer. Incentive is per fryer.

ENERGY STAR® Griddles

Incentives are available for replacement gas units that are ENERGY STAR®-listed. Griddles must have a Cooking Energy Efficiency of at least 38%. Used or rebuilt equipment is not eligible. Incentive is per griddle.

Pre-Rinse Sprayers

(Gas Water Heater)

Incentives are available for low-flow, high-efficiency pre-rinse sprayers using less than or equal to 1.6 gallons per minute (gpm). Water heating must be with a natural gas appliance. Incentive is per sprayer.

Commercial Kitchen Ventilation (CKV) Hood with Demand Control

Incentives are available to install commercial kitchen ventilation (CKV) hood control systems for fast food and full service restaurants. The control system must have both thermal and smoke (opacity) sensors. The ventilation controller must reduce the hood flow rate when the cooking equipment is being lightly used. Incentive is per hood per CFM.

ENERGY STAR® Dishwasher

Incentives are available for high efficiency dishwashers that replace non-high efficiency dishwashers that use a gas water heater. Dishwasher types include: stationary single tank door, single tank conveyor and multiple tank conveyor. Dishwashers can have either electric, gas or no booster. Qualified dishwashers must meet ENERGY STAR® requirements. Incentive is per washer.

ENERGY STAR®

Dishwasher - Under Counter

Incentives are available for high efficiency dishwashers that replace non-high efficiency dishwashers that use a gas water heater. Dishwashers must be an under counter style. Dishwashers can have either electric, gas or no booster. Qualified dishwashers must meet ENERGY STAR® requirements. Incentive is per washer.
