

About our Program

DTE Energy business customers — small, medium and large — can lower their monthly utility costs by implementing a few simple energy efficiency measures. Our **Energy Efficiency Program for Business** offers a comprehensive set of incentives for both natural gas and electric users designed to help you invest in energy efficient technologies.

Here are three ways to save:

PRESCRIPTIVE

Are you replacing heating systems with newer energy-efficient models?

Upgrading your hot water and food service equipment?

Check out the **Prescriptive Incentives** section of our Catalog and Application — and see our list inside.

Prescriptive Incentives cover a wide variety of energy-efficient improvements, including: HVAC, controls, refrigeration, lighting and more.

Incentives are based on quantity, size and efficiency of the equipment.

- Prescriptive incentives are available for many common energy efficiency measures.
- Incentives are based on predetermined energy savings.
- Prescriptive incentives typically average 20% to 50% of the incremental cost of the equipment or services provided.

CUSTOM

Can't find your project in the Prescriptive Incentive section?

Then consider applying for **Custom Incentives**, which are for projects that involve less common or more complex technologies than our list of prescriptive equipment.

Custom Incentives are based on the first year of energy savings (Mcf and/or kWh).

NOTE: Only DLC- and ENERGY STAR[®]-listed lighting is eligible; fluorescents and CFLs are **not** eligible.

- Custom incentives are offered for capital investment projects that are NOT eligible for a Prescriptive incentive.
- Incentives are determined on a case-by-case basis and are paid per unit energy saved.
- Custom incentives are capped at 50% of project costs.

NEW CONSTRUCTION

Are you building a new facility, changing the usage of space or adding load? Then our **New Construction and Major Renovation Incentives** are available to assist you:

- **Systems Approach** incentives are predetermined to optimize the energy efficiency of individual systems.
- **LEED Whole Building Approach** incentives are based on energy savings validated by LEED.
- The **LEED Design Review Assistance** incentive is designed to encourage LEED certification.
- New Construction/Major Renovation incentives are available for new facilities, the renovation of existing facilities or a change of use project, such as converting a warehouse into an office complex.
- Incentives also are available for adding load.

PRESCRIPTIVE MEASURES

2017 Electric

Contact Us

phone: **866.796.0512** (press option 3)

web: **dteenergy.com/savenow**

email: **saveenergy@dteenergy.com**

fax: **313.664.1950**

*Funds will be awarded on a first-come, first-served basis; program based on availability of funding and may end at any time; certain other conditions apply; contact our office for details

V4: 6/1/2017

Ask us how DTE Energy can help you reduce your business' electric costs year after year!

DTE Energy offers cash incentives for the installation of these energy-saving measures*

Lighting

- Exit Signs
- Exterior or Garage HID to LED Lighting Retrofit.
- Incandescent/Halogen/CFL to LED Recessed Down Lights
- Interior LED Fixtures (24/7 operation)
- Interior LED High Bay
- Interior LED Low Bay
- LED Refrigerated Case Door Lighting
- LED Traffic and Pedestrian Lights
- Tubular Skylights

Controls

- Exterior LED Lighting Bi-level Controls
- Exterior Lighting, Bi-Level Control with Override
- Exterior Multi-Step Dimming Timer Controls
- Garage LED Lighting Bi-level Controls
- Interior Central Lighting Control
- Interior Combined Occupancy and Daylight Sensor
- Interior Daylight Sensors
- Interior Occupancy Sensors
- Interior Stairwell Lighting Controls
- Interior Switching Controls for Multilevel Lighting
- Occupancy Sensors for LED Refrigerated Case Lighting

HVAC

- Air-Cooled Chillers
- Air Source Heat Pumps
- Chilled Water Reset – Air Cooled
- Chilled Water Reset – Water Cooled
- Chilled Water Reset with Pump on/off Control
- Closed Loop Water Source Heat Pumps
- Cool Roofs
- EC Motors replacing non-EC Motors
- Economizer
- Efficient Chilled Water Pump
- Efficient Hot Water Pump
- Ground-Source Heat Pumps
- High Performance Glazing Windows
- Hotel Guestroom Energy Management Control (AC)
- HVAC Occupancy Sensor, Large Office Buildings
- Packaged Terminal AC and Heat Pump
- Programmable Thermostat (AC)
- Room Air Conditioners
- Setback-Setup Controls (Air Conditioning)
- Unitary and Split Air Conditioning Systems
- Variable Frequency Drives – HVAC Fans/Pumps
- Water-Cooled Chillers
- Web-Based EMS
- Window Film

HVAC Tune-Ups

- Chiller Tune-Up
- DX Condenser Coil Cleaning
- Refrigerant Charging Correction on RTU AC

Miscellaneous Electric

- Electric Tankless Water Heater
- Heat Pump Storage Water Heater
- High Efficiency Clothes Washer (Electric Water Heater)
- High Efficiency Hand Dryer
- Intelligent Multi-Socket Surge Protector
- PC Network Energy Management Controls

Process Electric

- Air Blowers replacing Compressed Air Blow-off
- Barrel Wraps for Injection Molders and Extruders
- Blower Purge Dessicant Air Dryer
- Compressed Air Audits with Leak Repair
- Compressed Air Pressure Flow Controller
- Compressed Air Storage Tank
- Computer Room Air Conditioning (CRAC) Units
- Efficient Compressed Air Dryers
- Electric Motors replacing Pneumatic (Air) Motors
- Electric Tools replacing Pneumatic (Air) Tools
- Electronically Commutated Plug Fans for Data Centers
- Engineered Nozzle
- Fiber Laser Cutter replacing CO2 Laser Cutter
- Heated Dessicant Dryers
- High Efficiency Pumps
- High Efficiency Welders – Inverter Style
- Industrial 3 Phase High Frequency Battery Chargers
- Injection Molding Machines
- Insulation for Pellet Dryer Ducts
- No-loss Condensate Drains on Air Compressor
- Pneumatic Tools replaced with Cordless Tools
- Refrigerated Air Dryer replacing Desiccant Air Dryer
- Tank Insulation
- Variable Displacement Air Compressor
- Variable Frequency Drives (VFD) for Process Fans/Pumping
- VFD on Computer Room AC Supply Fans
- VSD Air Compressor

Food Service & Refrigeration

- Anti-Sweat Heater Controls
- Automatic Door Closers
- Beverage Vending Machine Controllers
- Door Gaskets on Coolers and Freezers
- ECM Motor for Reach-in Refrigerated Display Case
- ECM Motor for Walk-in Freezer and Cooler
- Efficient Refrigeration Condenser
- Energy Efficient Ice Machines
- ENERGY STAR® Commercial Solid Door Freezers
- ENERGY STAR® Commercial Solid Door Refrigerators
- ENERGY STAR® Hot Holding Cabinets
- ENERGY STAR® Steam Cookers
- Evaporator Fan Motor Control for Walk-in Cooler or Freezer
- Floating Head Pressure Controls
- Pre-Rinse Sprayers (Electric Water Heat)
- Reach-in Refrigerated Display Case Door Retrofit
- Refrigeration Savings Due to Lighting Wattage Reduction
- Strip Curtains on Walk-in Cooler and Freezer Doors
- Vertical Night Covers
- Walk-in Cooler/Freezer Evaporator Fan Motor Reduction

 Qualifying Measures for New Construction Applications

Custom projects

What if I'm installing equipment that isn't listed?

If your project involves measures not listed here, you should consider applying for **Custom** incentives.

Custom incentives are paid based on each project's first-year energy savings.

All Custom Applications require a Reservation Application prior to beginning your project.

New Construction and Major Renovation projects

If your project involves the construction of a new building or the re-purposing of an existing structure, then you should apply for incentives under our **New**

Construction-Major Renovation program.

Incentives offered through this program are ideal for projects that either involve whole building energy modeling or pre-determined measures. Look for this icon  in our Catalog and Application — and on our lists (left) — identifying qualifying measures.

For more information about the New Construction/Major Renovation program, download our Catalog or Application from dteenergy.com/savenow.

**For a list of individual measures and specifications, download the 2017 Program Catalog and Application at dteenergy.com/savenow*
