Trade Ally Program

Looking for larger savings and impact? Simply select one of our approved Trade Allies from our website and they will do the rest. The Trade Ally will visit your facility, provide you a detailed proposal and install agreed upon products with little to no effort from you.

Typical measures include indoor and outdoor lighting retrofits and refrigeration controls. Incentives may cover up to \$10,000 of the project cost and in some cases the program **pays 100 percent** of the project cost.

“The installation of low-flow shower heads and aerator will allow us to use the utility savings to continue our work with the homeless and veterans in Lansing.”

- Charles Coe,
Volunteers of America
