TEP EasySave Plus (Pre Application) Prescriptive Rebate Incentive Application Agreement

Name of Project: Sample Project TEP Account Number: 0123456789

As an eligible Tucson Electric Power (TEP) customer, I certify that I contracted for or purchased and installed the indicated energy efficiency measures after July 3, 2008 for use in my business facility and not for resale. I have attached documentation establishing proof of payment for the items installed according to this application. I agree to verification by the utility or their representatives of both sales transactions and equipment installation.

I certify that the information on this application is true and correct, and that the Taxpayer ID Number is representative of the applicant and that TEP, UniSource Energy Corporation, and DNV GL are not responsible for any taxes that may be imposed on my business as a result of receipt of this incentive. I understand that incentive payments assume related energy benefits over a period of five years or for the life of the product, whichever is less.

I agree that if: (1) I do not install the related product(s) identified in my application, or (2) I remove the related product(s) identified in my application before a period of five years or the end of the product life, whichever is less; then I shall refund a prorated amount of incentive funds to TEP on the actual period of time in which the related product(s) were not installed and operating (or the full amount if the product was never installed). This is necessary to assure that the project's related energy benefits will be achieved.

I understand that the program may be modified or terminated without prior notice. The program has a limited budget. Applications will be processed on a first-come, first-served basis until allocated funds are spent. I understand that the Final Application and all required documentation should be received by TEP within 60 days of project completion. All equipment must be purchased and installed prior to submitting the Final Application. I also understand that all materials removed must be disposed of properly and taken out of service. All work shall be performed in accordance with all applicable professional standards and comply with all applicable federal, state, and local laws, ordinances, codes and regulations.

In no case will TEP pay more than 75% of the incremental measure costs. I will disclose below if I intend to apply for local, state or federal tax credits and understand that the incremental measure cost will be reduced by these anticipated credits prior to applying the 75% cap. I understand that TEP or its representatives have the right to ask for additional information. The TEP Commercial Energy Solutions program will make the final determination of incentive levels for this project.

In return for the payment by TEP under the Commercial Energy Solutions program, I understand that any energy efficiency credits and all resultant associated environmental credits from the energy efficiency measures for which the rebate is paid, are assigned to TEP and/or UniSource Energy Corporation. I understand that my company may be recognized as a program participant in promotional materials; however, project details will not be released without prior consent. If I choose to opt-out of any recognition, I will indicate my choice in a written letter.

I have read and understand the program requirements and Measure Specifications and Terms and Conditions set forth in this application and agree to abide by those requirements. Furthermore, I concur that I must meet all eligibility criteria in order to be paid under this program.

The Arizona Corporation Commission Decision No. 70406 requires TEP to deduct the value of your tax incentive when calculating your maximum rebate.
