

2020 Application Specifications Electrification

October 2020

STANDBY TRUCK REFRIGERATION

Measure: Install standby truck refrigeration units to power refrigerated trailers.

- Units may be wall- or pedestal-mounted at truck dock or at a truck stop.
- Installations at both new and existing facilities are eligible.
- Installation of permanent, exterior 3-phase power, 480-volt plug-in system.
- Rebate is based on number of newly installed 480-volt plug-in systems, not number of trailers.
- Replacement of existing systems are not eligible.

ELECTRIC FORKLIFT

Measure: Purchase of new electric-powered unit or replacement/conversion of existing fossil-fueled forklift to be powered by electricity.

- Class 1 (electric rider trucks, counterbalanced rider, stand-up, three-wheel or four-wheel sit-down) and Class 2 (electric narrow aisle trucks, order picker, high-lift straddle, side loaders, turret trucks, high- or low-lift pallet lifts) are eligible.
- Purchase of new or leased equipment with a buyout clause are eligible.
- Model and serial number documentation is required (Invoice or pictures and invoice).
- Replaced fossil-fueled equipment must be removed from the property.

AIRPORT BAGGAGE TUG

Measure: Conversion of existing fossil-fueled airport baggage tug to be powered by electricity or replacement of fossil-fueled airport baggage tug with a new electric-powered unit.

- Purchase of new or new leased equipment with a buyout clause are eligible.
- Model and serial number documentation is required (Invoice or pictures and invoice).
- Replaced fossil-fueled equipment must be removed from the property.

AIRPORT BAGGAGE BELT LOADERS

Measure: Conversion of existing fossil-fueled airport baggage belt loader to be powered by electricity or replacement of fossil-fueled airport baggage belt loader with a new electric-powered unit.

- Purchase of new or new leased equipment with a buyout clause are eligible.
- Model and serial number documentation is required (Invoice or pictures and invoice).
- Replaced fossil-fueled equipment must be removed from the property.
