

10% Large electric project bonus

We would like to thank our designated trade allies for their continued support, and we know that larger projects can be more complex and difficult to apply for. In an effort to reward trade allies for their hard work, we are offering a special bonus to encourage contractors to identify large electric projects and apply for incentives on their customer's behalf. This bonus will be 10% of the incentive value for all projects with an eligible electric measure category over \$9,100 will be paid directly to you, our valued trade allies. Bonus is capped at \$10,000.

2021 Large electric project bonus

PROGRAM OVERVIEW

With the 2021 large project bonus program, the DTE Energy Efficiency Program for Business seeks to reward designated trade allies for their dedicated work on large projects.

Between Jan. 1, 2021 and June 30, 2021, eligible designated trade allies can receive a 10% bonus on measures for submitting complete paid final applications for electric projects that result in a paid incentive per electric measure category of at least \$9,100. Bonus is capped at \$10,000. Projects must be reserved by Feb. 28, 2021 and finals received June 30, 2021 to be eligible for the bonus. Large project bonuses are calculated according to paid incentives per measure category.

Bonus dollars will be paid per application, with a check payable to each designated trade ally. Any final application submitted by a trade ally after June 30, 2021 will not qualify for a reward. Any projects previously applied for and cancelled will not qualify for a reward.

COMPLIANCE WITH DTE PROGRAM REQUIREMENTS

Participants in the 2021 large project bonus program shall comply with all requirements, terms and conditions of the DTE Energy Efficiency Program for Business, as set forth in the incentive applications and related program documents.

ELIGIBILITY

Eligible participants in the 2021 large project bonus program must:

- Be a designated trade ally in good standing on the date of enrollment and remain in good standing throughout the 2021 program year
- Submit a completed large project bonus program application (reverse side) to: DTESaveEnergy@dnvgl.com
- Reservation and final applications submitted prior to completing the program enrollment application will not be eligible for the large project bonus
- Trade allies who are not able to receive third party incentive checks are not eligible to participate in the large project bonus program

REWARD REQUIREMENTS

The following requirements must be met before a reservation application (when applicable) and final application can qualify for a DTE large project bonus:

- The reservation application and final application must include all required documentation, information and signatures at the time of submittal
- The reservation application and final application must be filled out and submitted by the designated trade ally, from the designated trade ally's email address, fax number or return address
- The designated trade ally's information must be listed in the "primary contractor/distributor information" field on the final application
- The final application must result in a paid project
- Reservation applications must be submitted and reserved before final applications are submitted
- For applications submitted through the online tool, indicate "large project bonus" in the notes section on the validate tab

Incomplete applications and applications submitted directly by customers or subcontractors will not qualify for a large project bonus.

The 2021 large project bonus program may be combined with other DTE Energy Efficiency Program for Business bonus programs. However, large project bonus program incentives are calculated from the paid base incentive total, which does not include eligible bonuses. Funds are limited and subject to change. This offer may end at any time.

* Each electric measure category must be \$9,100 and cannot be combined with other categories. Please note, the following measures do not qualify for the large project bonus:

- Building operator certifications
- Compressed air audit with leak repair measures (CA-25, CA-41)
- HVAC tune-up measures (HE-48, HE-49, HE-50)
- Refrigerated savings due to lighting savings measures (FE-35, FE-36, FE-37)
- All gas measures
