

# New construction bonus

## For a limited time only.

In an effort to encourage new construction and growth throughout our service territory, we are offering a bonus on our new construction incentives. This bonus is intended to encourage the incorporation of energy efficient equipment into the design and is paid directly to the contractor, designer or architect that submits the application.

This bonus will offer 10% the value of incentives, for new buildings or major renovation, paid directly to the contractor/designer/architecture/real estate firm. This bonus program will run from Feb. 1, 2020 to Nov. 30, 2020, and applies to all paid new construction (LEED and systems approach) electric and natural gas measures. This bonus does not apply to new construction projects submitted before Feb. 1, 2020.

This bonus may be combined with other DTE Energy Efficiency Program for Business bonuses. However, incentives are calculated from the paid base incentive total, which does not include eligible bonuses. Funds are limited and subject to change. This offer may end at any time.

**For more information about this offer, contact our office by phone at 866.796.0512 (option 3) or by email at [saveenergy@dteenergy.com](mailto:saveenergy@dteenergy.com).**

## How to apply:

Next to "Offer Code" on page 4 of the application, manually enter "New construction bonus" and input the calculated bonus at the 10% rate in the field to the right.
